

A sample program can be used to plan progress in a major. Not all students will follow the sample program, because students are individuals and can make choices to fit their situations. Students should consult their WLC academic advisor. Please note that course offerings may change due to staffing, curriculum changes, and course enrollments. In the schedules below, electives are marked with \*\* - four electives are required for the major and one for the minor. Not shown are the three additional electives available in the mathematics and physics departments. Students must take all mandatory courses when they are offered.
