REGISTRATION WALK-THROUGH

Log in to your myWLC account and click STUDENTS from the menu. Scroll down and find the COURSE SCHEDULES portlet. If you have not updated emergency contact information you may be prompted to do so.

If you selected ADD DROP COURSES, you will be taken to the page shown at left.

Choose the appropriate term from the drop-down menu. The page will auto-refresh with the correct term.

Upon selecting the upcoming term the page will ask you to update your emergency contact information as shown at right.

Click COMPLETE THE PERSONAL INFO UPDATE form link to go to the page to complete the update.

Read the information presented to you, complete the form, and click SUBMIT at the bottom, unless you have a hold on your account. The holds are indicated on the course registration page. A hold will also prevent you from registering. Follow the instructions given to you in the hold section to resolve the hold. When your hold is resolved, you may proceed with registration.

In the ADD BY COURSE CODE section, you may begin to type the courses you would like to register for and they will auto-fill. Once you make your selections click ADD COURSE.

The next page will show you any errors that may have occurred and will tell you how to resolve them. It will also display the courses you have successfully registered for.

Once you have registered for all of your courses, click SEND AN APPROVAL REQUEST so that your advisor is notified and grants permission for you to take the courses.
